Nice to see the Software Crafting community acknowledging the importance of inclusiveness in language moving away from “man” 😊😍

I think of myself better in the future table than in the past	It's also useful because you can compare yourself to others	Now I have more control over my own money and I'm saving more now.	USER PERSPECTIVE THREE: A GOOD TIME	Find a good time to go into the market	Finals week easy-long-term implementation	ANYTHING TIME	Padlock good job! Good habits	I think you presented well! Thank you!
Read my first blog post about the new semester	Next chapter of beautiful Code (11/11)	What's different about this semester?	What's different about this semester?	What's different about this semester?	What's different about this semester?	Two months ago were and will be the same	Code Time	I ENJOYED THIS DOJO
Feedback Rock is an interesting tool for notes	I'd like to start doing more exercises	To learn about this EDLOG	Want to try a new language	Should probably do more reading	I would like to start: - reading code completely	Supposed me to: How Code Academy can make programs a lot more readable	I MADE THE CODE READABLE BY HAVING EVERYTHING IN ONE PLACE	Very excited about December 10th
what's a good end we don't know depends...	It could be maybe Pretty cool situation in still off the track of value	Solution will come depending on the situation	Learning new skills is my only goal	I am learning how to change from one thing to another and you're doing that you're doing	The last about two months, now better, an awesome day to play a game sometimes it's welcome	I like to start using GitHub because it's easier to do the changes and test them out	We're going to see if the situation lets us do the same things	It's good to break down the problem into smaller parts
So much information available online	I'm not sure by ABC Events	For And ABC Events	Software Metrics Solved Me	Learn Value Stuff and Tutorials	Potential conflicts of play SHADED	The last 3 start reading much more books	I've learned... - ABC Events - No big deal - It's better in SEP book	It's like to start learning... - reading the books as well - reading the books

RACHEL
CARMENA

We are late to the game. Finally we vow to follow a Code of Conduct.

On the next meetup (15. March) we will explain our motivation. If you have been kind to others until now, nothing will change for you.

Please read our CoC in detail:
