What is (not) Software Craftsmanship?

like

*this Topic will be presented by [Daniel Carral](#)
at [September Meetup 2017](#), hosted by [Tobias Pfeiffer](#)*

Companion material (slides, resources...) can be found @ <https://github.com/dcarral/software-crafting>

Abstract:

What do we mean by Software Crafting? What not? How and why was it born? By the way, wasn't it called Craftsmanship?
Anyway: why does it matter?

After answering all these questions and introducing concepts like deliberate practice and Open Space Technology, we will explore the current status of Software Crafting communities and events across Europe.

Nice to see the Software Crafting community acknowledging the importance of inclusiveness in language moving away from “man” 😊😍

XING X

I think of myself better in the future table than in the past	It's also useful because you can compare yourself to others	Now I have more control over my own money and I'm saving more now.	USER PREFERENCE THREE: DODGE TIME	Find a balance between your work and your personal life	Finals week easy-long-term explorations	ANYTHING TIME	Padlock good job! good habits	I think you probably know what I mean
Read my first book about the environment	Next chapter of Beautiful Code (11/11)	What's different about this version?	What's different about this version?	What's different about this version?	What's different about this version?	Two months ago we had last the summer	Good luck	I ENJOYED THIS DOJO
Feedback Rock is an interesting tool for notes	I'd like to start doing more experiments	To learn about this EDLOG	Want to try a new method for writing	Should probably do more writing	I would like to start: - reading code completely	Supposed me to: How code applies in real programs in a bit more readable	I MADE THE DODGE CHALLENGE NOT HAVING PROBLEMS	Very excited about DODGE CHALLENGE
what's a good one we don't know anything about	It could be maybe just what's out there in the off the shelf of value	Solution to the problem	Writing for myself is my only writing	I'm learning how to think more critically through my writing	The last ABOUT AND MODE, ADM REPS, AN AWESOME DAY TO PLAY A GAME, CONVERSATION IS WELCOME	I'd like to start using DODGE again. It's been a while since I've done it	We're going to see if the software lets us do the same things	It's good to break away from the norm
So much information available online	I'm still not by ABC Educa...	For And ABOUT AND MODE BOOK	Software Metrics SUGGEST ME	Learn Value Stuff about IT'S better	Potential applications of blog SHAPED	The last 3 about reading material they wanted	I've learned... ABC Educa... - No big deal - It's better in SEP book	It's like the start of the year... - Reading the books in the order you have
